Printouts from two searches for Lelslie M. Briley Jr.: Yellow Book and Yahoo.

The Inventor cannot be reached

One of the inventors of the 10/762,191 application, Leslie L. Briley Jr. cannot be reached by us. He is also, listed as an inventor on the parent patent 6,679,476. Leslie L. Briley Jr. and Doug Noyes, a named inventor on the parent patent and in this continuation, used to work together at High Speed Industries. That business is not defunct.

The address that Leslie L. Briley used in the parent patent was the business address of High Speed Industries. Mr. Briley received his personal mail at his business address. After Leslie L. Briley Jr. left the business, he still had his personal mail sent to the business address.

Douglas Noyes repeatedly asked Leslie L. Briley Jr. to provide a forwarding address or residence when he came by to pick up his mail at the business. Leslie L. O'Reilly Jr. refused to provide a forwarding address. Eventually, Douglas Noyes started marking all of his Leslie Briley's mail, "return to sender". We have no known address or way of contacting Leslie to L. Briley Jr. His last know address was the business that is now defunct. Mr. Douglas Noyes ran the business, and closed it.

Mr. Leslie L. Briley does not show up on any searches for him that we have preformed. We have attached a printout of a search from the online Yellow Book, [www.yellowbook.com](http://www.yellowbook.com). There is no listing for a Leslie Briley. I searched in California, and nationwide. Both search printouts are included. I confirmed that the search engine finds me when I search in California.

Qualification to Make the Petition

Mr. Leslie L. Briley assigned his interest in the patent to Puregress Inc., as is reflected on the cover sheet of the patent and in the file history.

I believe that I am able to make this petition under 37 CFR, §1.47 (b), because I am the President, and a duly authorized representative, of Puregress Inc., to whom Leslie L. Briley Jr. has assigned the invention. The rules describe at 37 CFR, §1.47 (b)

(b) Whenever all of the inventors refuse to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for all the inventors. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, the fee set forth in § 1.17(h), and the last known address of all of the inventors. An inventor may subsequently join in the application by filing an oath or declaration complying with § 1.63.

The patent has been allowed, but not yet issued

The application 10/762,191 has been allowed by the examiner, but it has not yet issued. We wish to correct the inventorship before the patent issues.

If it is believed that a telephone conversation with pro se applicant/assignee would be helpful in expediting the petition, the office is invited to call the undersigned at (650) 641 3019, or e-mail at [adglew@glewengineering.com](mailto:adglew@glewengineering.com).
